Image: Emailová komunikácia z C-Monitora

Emails from Tasks, Watches waiting for sending - emails intended for operators and customers, notification emails from tasks and watches waiting to be sent. They aren't archived anywhere after sending and they can be read normally.

Received, processed Emails - Processed emails received through POP3

Emails waiting for sending - Results of scheduled tasks waiting to be processed

Emails - All (without waiting for sending)

Sent Emails - C-Monitor System Messages - Defaultly disabled: system messages sent from C-Monitor (monitorlog.log, watches.log)

Sent Emails - User and System tasks Results - emails intended for CM server, successfully sent

Sent Emails - Response to CM queries - Email responses to requests from CM Server, delivered by both POP3 and HTTP, e.g. request for list of partitions

Not Sent Emails - Disabled - Archive of messages from disabled functions

Not Sent Emails - Failed - Failed messages
