

To simplify distribution of commonly used files for your customers, you have an option to create your own archive of files on CM portal. It's accessible through the Login screen at the bottom left (do not login to CM portal) and of course you need to have the access address to CM portal with a custom domain.

The archive is configured under a logged Maintainer at *Admin zone -> My profile, global settings -> tab Archive of files*. You have 100MB of free space available. You may either have your archive displayed with, or without mutual files in public space of the archive on CM server (the option *Don't show default installation and update files of CM server in the archive*).

The above described procedures only apply to CM servers intended for rent of the solution. Maintainers with a custom CM Server set all of their shared files as a public archive. Help to sharing files on independent servers is provided individually

The screenshot shows the Customer Monitor web interface. The browser address bar displays 'https://cmportal.eu/index2.php'. The user is logged in as 'John Smith'. The interface has a dark blue header with navigation links: 'Seba', 'Upraviť', 'Zobraziť', 'Odfiltrované položky', 'Uložte', 'Pamoaak', 'Previesť', 'Vykrať', 'Snagit'. The main content area is titled 'Môj profil, globálne nastavenia' and includes a sidebar on the left with categories like 'Hlavné menu', 'Zákazníci', 'Počítače', 'Audít SW a evidencia HW', 'Používateľia', 'Admin, nástroje', and 'Externé programy'. The main content area has tabs for 'Admin zóna', 'Prehliadanie a Vyhodnotenie', and 'Customer Desk'. The 'Customer Desk' tab is active, showing 'Môj profil, globálne nastavenia'. Below this, there's a section for 'Upozornenie' (Warning) and a list of settings tabs: 'Všeobecné nastavenia', 'Vzdialený prístup', 'Log v CM', 'Príhlasovacia obrazovka', 'Nastavenia pre zákazníkov a počítače', 'Výhodové oprávnenia pre nových zákazníkov', 'C-Desk hl. nastavenia', 'C-Desk počítačové', 'Špeciálne email. notifikácie', 'Archív súborov', 'Interné editované súbory', and 'Inštalovaný súbor C-III Setup.exe'. The 'Archív súborov' tab is selected, showing a table of files in the archive. The table has columns: 'Zmazať', 'Poradie', 'Súbor', 'Popis', 'Typ linky', 'Text linky', and 'Text nad linkou'. The table lists three files: 'More Merit 6.6.0.16.exe (22.6 MB)', 'WinGolf.exe (1.3 MB)', and 'Golf.exe (72 MB)'. Below the table, there's a 'Nový' button and a 'Prehliadať...' button. A tip at the bottom states: 'TIP: Pri zobrazení priebehu uploadu, použite prehliadač Google Chrome. (Upozornenie: Prehliadač Google Chrome je nepodporovaná verzia prehliadača pre CM. Niektoré funkcie nemusia fungovať správne.)'.
