"Customer Monitor is fair. To you and to your clients.
Safety and stability, no sensitive data.
Without any risks, encrypted transfers, protected data."

Customer Monitor works with important data. This data are transferred through the internet or network to CM server. In every moment of this transfer, your sensitive data are secured, as well as on the server. CM does nothing without your awareness, it doesn´t force the privacy of your clients. Customer Monitor is built on transparency and credibility.
